

# Install System

To install the RetroPie SD image on your MicroSD card. (You may need a MicroSD card reader to plug it into your computer)

1. For Windows you can use a [Etcher](#) or [Win32DiskImager](#)
2. For macOS you can use [Etcher](#) or [Apple Pi Baker](#)
3. For Linux you can use dd command or [Etcher](#)

See [the official Raspberry Pi "WRITING AN IMAGE TO THE SD CARD" instructions.](#)

4. After installing the system, you need to expand the last partition. Please watch the video below to operate.

expand the last partition.mp4
